EMPLOYMENT EXPERIENCE

April 2006 – Present
Systems Engineer

Presidio Networked Solutions

Tulsa, Oklahoma

- Provide pre-sales and post-sales engineering services to customers of all types including education, corporate and government facilities.
- Design, install and maintain Cisco voice systems comprising of CallManager, Unity, IPCC and MeetingPlace.
- Design, install and maintain Cisco wireless networks including outdoor Wireless Mesh and LWAPP controller based systems.
- Install and support the necessary router and switch infrastructures to support these and other network applications.

September 2000 – March 2006**Sulzer Chemtech USA, Inc.****Tulsa, Oklahoma***Wide Area Network Administrator*

- Design, implementation and maintenance of a Wide Area Network spanning seven sites across the United States using Cisco routers and switches
- Administration of forty Windows 2003 servers including integration into a multi-domain Active Directory environment
- Management of Exchange 2003 email infrastructure
- Administration and maintenance of a Cisco CallManager Voice over IP Phone System including dial plan design and Quality of Service over the WAN
- XML application development for Cisco IP Phones
- Web application development using ASP on a Microsoft IIS platform
- Database design and maintenance using Microsoft SQL server

July 1999 – January 2000**Thrifty Car Rental****Sydney, Australia***Network Administrator*

Implemented internet technology to the desktop through a system of firewalls and password-secured proxy servers. Also provided web-based e-mail to all employees. Also involved in planning and implementing a national network that included ISDN and Frame Relay connections between corporate locations across four states.

November 1998 – June 1999**Australian Catholic University****Sydney, Australia***Computer Services Officer*

Supervised a team of User Support Officers that provided technical support for students and faculty. Strongly involved in supplier contact including managing the IT purchasing for the entire campus. This position also involved developing training and instructional material.

January 1998 – October 1998**007 Computer Consultants****Sydney, Australia***Network Consultant*

This position provided an opportunity to work in a wide variety of environments and industries, including accounting, legal and hospitality firms, as well as a large number of schools, from elementary through to high school. Worked on all areas of these clients' networks including infrastructure, servers, operating systems, and business applications.

EDUCATIONAL EXPERIENCE

Currently enrolled at Tulsa Community College
Pursuing an Associate Degree in Computer Information Systems
